The Jurgens Journey

The founding owners of Jurgens Australia, Ian Jow & Eddie Wills are proud to present the new Jurgens Tourer range.

Ian and Eddie went on to establish Willow RV in 2017 where they utilised their expertise from their Jurgens years to develop a new range of caravans.

However, their fondness for Jurgens Caravans has never waned and with the desire to introduce a touring caravan to the Willow RV range and using over 45 years of combined experience in the research, development and production of recreational vehicles, the Jurgens Tourer was developed.

WARRANTY

We know that confidence in the ability of your RV is paramount to the success and enjoyment of your travels.

We offer a 3-year structural warranty on all components manufactured by us. Bought-in fitted components are supported by the component suppliers' own warranty terms and conditions.

From the moment you register your brand new caravan, you are covered, so let your journey begin and enjoy your new Jurgens Tourer.

The same caravan construction

Just like our Willow range, the Jurgens Tourer vans use Instal tuff Hail Resistant One-Piece Composite Panels for the roof, sides and rear wall.

The furniture is all machined using the latest computer numerically controlled technology. We take pride in our focus on the details and exceptional functionality within every design. Combined with our tough and lightweight composite internal cabinetry material, your new van is durable and looks great thanks to our modern and fresh interior designs!
